Please email your order with shipping address and we will provide you with best shipping rates.

The goal of GAMMA Salt Crystals (GSC) is to provide quality product and customer service right here in the USA. We understand the frustration that is associated with ordering salt lamps from across the ocean and not knowing who is on the other end. Relax!! you have found us. We at GSC like you to try our product for your business from our warehouse right here in NJ at a cost similar to purchasing a container from Pakistan. And when you are ready and satisfied with our product and service then you can order a container from our factory in Pakistan

GSC has been in business since 1998, we are one of the first to introduce HIMALAYAN Salt products in the USA. We believe in quality product, produced ethically and our labor force is strictly adults only. We never, never hire under age employees. We believe Childers should be in school and not in factories. Our lamps are UL listed, our manufacturer facility is ISO 900 approved. Give us a try; you will be happy that you did.

GAMMA Salt Crystals LLC. 10835 SW 115 Ave. Miami, FL 33176
